

Pinnacle First Aid Kit™

The Pinnacle First Aid Kit (FAK) provides long-term maintenance and support for Pinnacle Solutions' product offerings. We give you access to our entire team of FAK experts – each with unique skill sets – so that you can rest easy knowing your issue will be addressed by someone who understands your problem and how to solve it.

Support of Your Software Solutions

SAS and server administration

Infrastructure review and assessment

Troubleshooting

System and performance monitoring

Software backup installation and configuration

Disaster recovery implementation

Maintenance

Support Coverage

Core technical support from 8 to 5 pm EDT.* Escalation of critical issues over non-critical issues.**

*Does not include holidays and weekends.

Incident Time to Respond

Acknowledgment of critical support issues within 4 hrs during normal business hours and goal resolution within 24 hrs; acknowledgment within 24 hrs for any non-critical support issue and goal resolution within 48 hrs.*

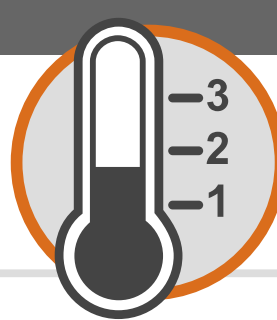

**Critical technical issues are defined as loss of service to the agreed upon production server(s).

Resource Types

Support will be offered on agreed upon applications, databases, web servers, etc.

Escalation Process

Our Pinnacle First Aid Kit team brings a wide variety of experience and expert skill to each request. Some issues can be tough to resolve, but our diverse skill sets provide the flexibility needed to quickly tackle complex problems and escalate if necessary.
