

Pinnacle Sherpa™

Gain a competitive edge by leveraging our hand-picked sherpas to guide you through your development projects. Our Staff Augmentation Services help you execute large-scale analytic and business intelligence initiatives. We are noted for our proven experience delivering the highest quality, dependable technical professionals at an unbeatable value.

Our Flexible Contracting Model Supports Your Specific Needs

Remote Consulting:
Choose our internal team to develop or support your applications.

On-site Consulting:
Have our consultants work alongside your staff or to oversee projects.

Individuals or Teams:
Specialists can be deployed to mentor and train your staff.

Is a **blended approach** better? Whichever model you choose, you can be confident knowing you'll be working with the very best staffing company and the most sought-after professionals.

Our Recruiters

At Pinnacle Solutions, our team of recruiters and account managers **partner with you** to provide the most qualified and reliable consultants to serve in locations across the country.

Pinnacle recruiters:

- Have insight into latest industry trends
- Are experienced in multiple technologies and industries
- Match soft skills and technology expertise to your team and company culture

Our Trusted Consultants

Besides superior skills and vast experience, our consultants demonstrate the finest characteristics along with **exemplary work ethics** for total client satisfaction and maximum results.

Each Pinnacle Sherpa specialist has guided and implemented hundreds of successful projects in vital key industries consistently within project time lines and budgets.

Our pool of talent includes expertise in all facets of the development life cycle.

Our Process

We carefully select consultants with expertise in both mainstream and niche skill sets along with a collaborative spirit.

In our thorough screening process we look for unmatched work principles, **leadership and mentoring qualities.**

We place outside-the-box thinkers who can change the trajectory of your company's profit margin and its industry posture through diligent work or one brilliant idea.
